

Manufacturers of the best quality dumpers on the market.

CUSTOMER TESTIMONIAL - FM CONWAY

WE HAVE NO REASON TO LOOK ELSEWHERE.

One of the 30 Dumpers delivered last year in Conway's distinctive green livery.

FM Conway is a leading infrastructure services company based in Sevenoaks Kent. For more than 50 years, FM Conway has worked with many local authorities and commercial organisations to provide integrated, cost effective and sustainable solutions to its many clients, all supported by their four core values; care, integrity, innovation and excellence.

Michael Conway, the company's CEO comments, "There is no real secret to our longevity. You need to set your goals, be confident, keep it simple, be honest

and listen to your customers. We have worked hard at being innovative and investing in products and services that meet our clients' needs."

With such high standards, Conway's Plant and Assets Manager John Tobin, chooses Thwaites dumpers for their vast plant fleet. "We have run Thwaites dumpers for over 25 years", comments John, "They are reliable, they suit our needs perfectly and we have no reason to look elsewhere. We like to keep our fleet up-to-date, and in the autumn of 2016 we bought a further 30 Thwaites units from our local Ernest Doe depot at Dartford. A mixture of 1.5 to 9 tonne units was delivered in Conway's distinctive green livery."
